

# Realizing the full potential: UAS Cross-Border Integration

Ralph Schepp,  
COO Droniq

**SAFIR-Med Conference & Demo Event**  
Port House, Antwerp, 02 June 2022

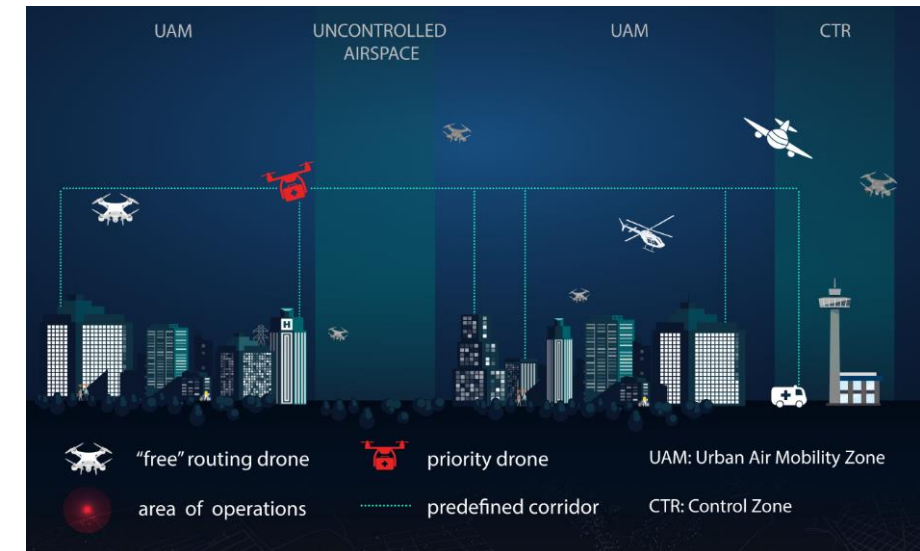

Droniq: To become first USSP in Germany

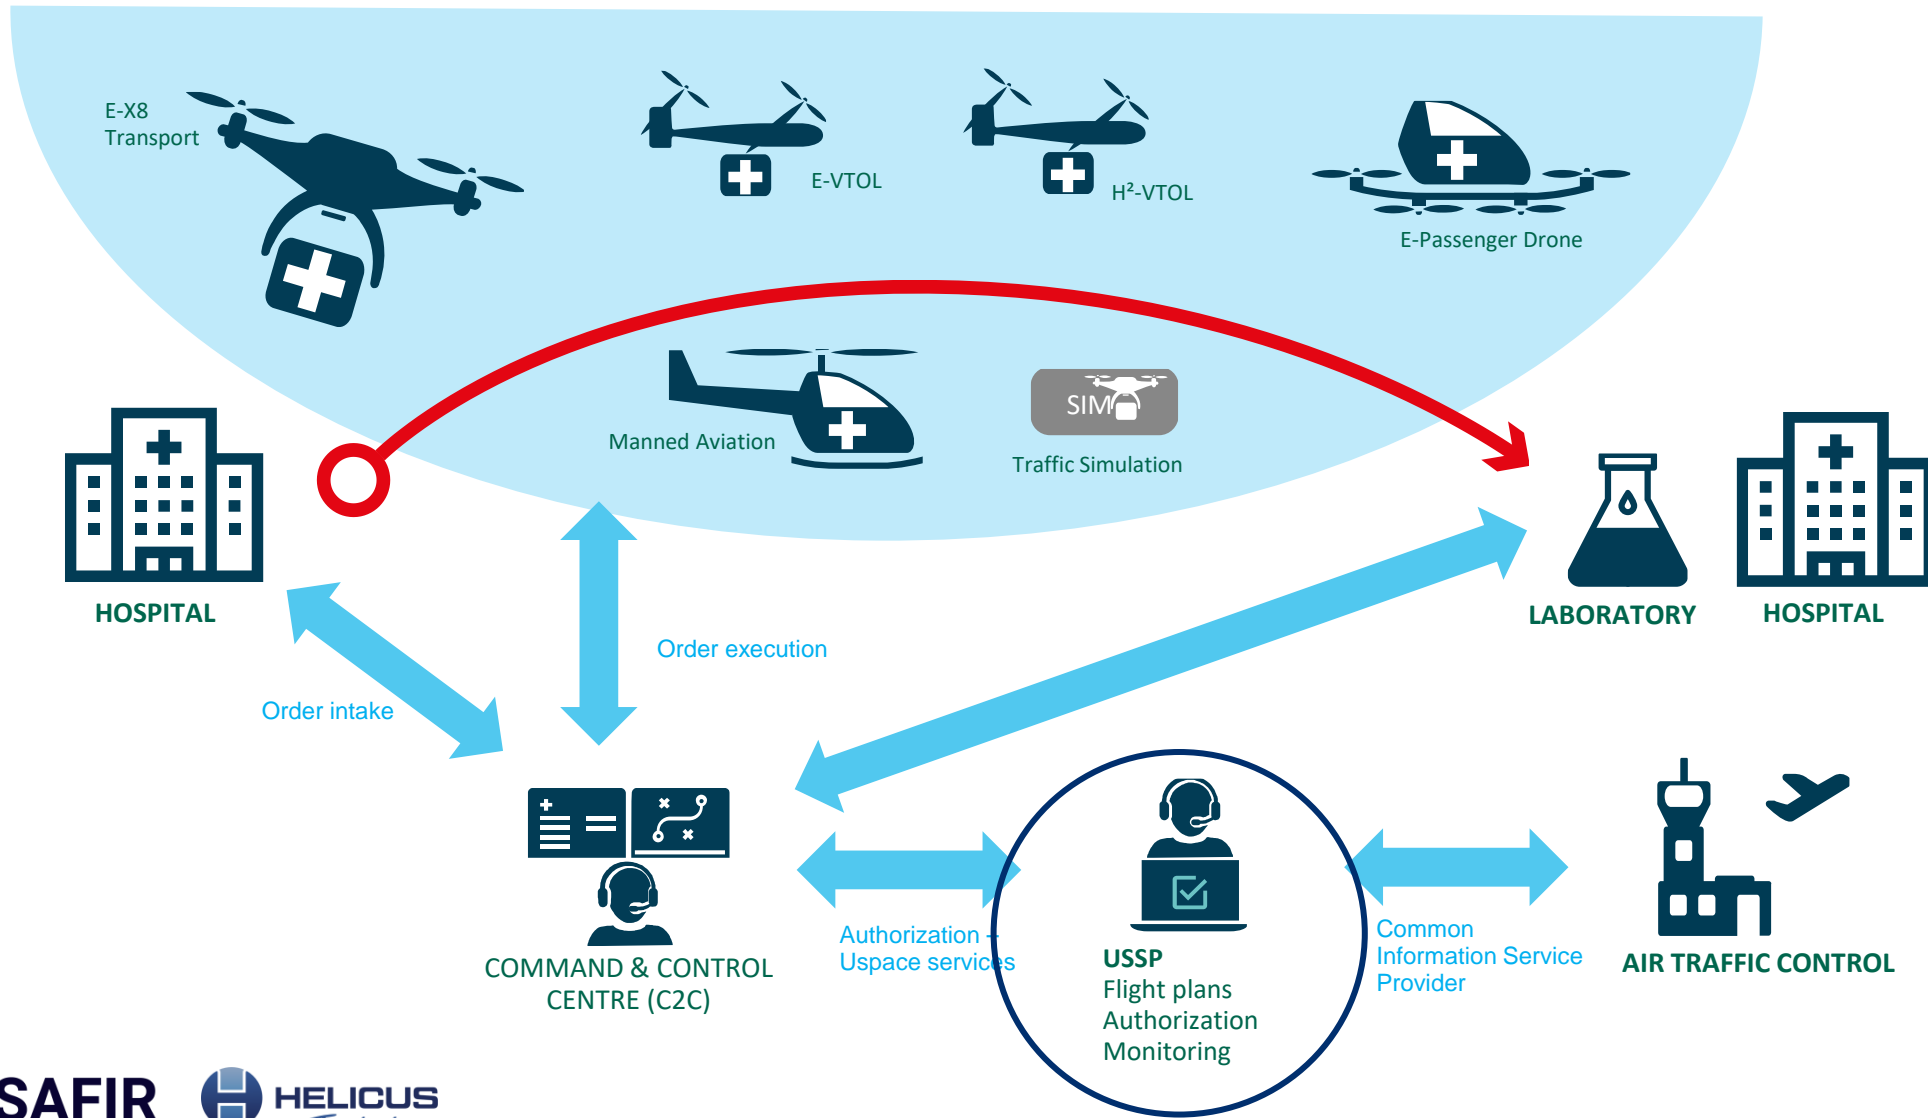

**Developer:** Developing a **safe and sustainable airspace UAS ecosystem**

**Enabler:** Enabling full UAS potential by setting up a **central digital platform** for UAS services

**USSP:** Act as **U-Space provider** for the MAHHL region

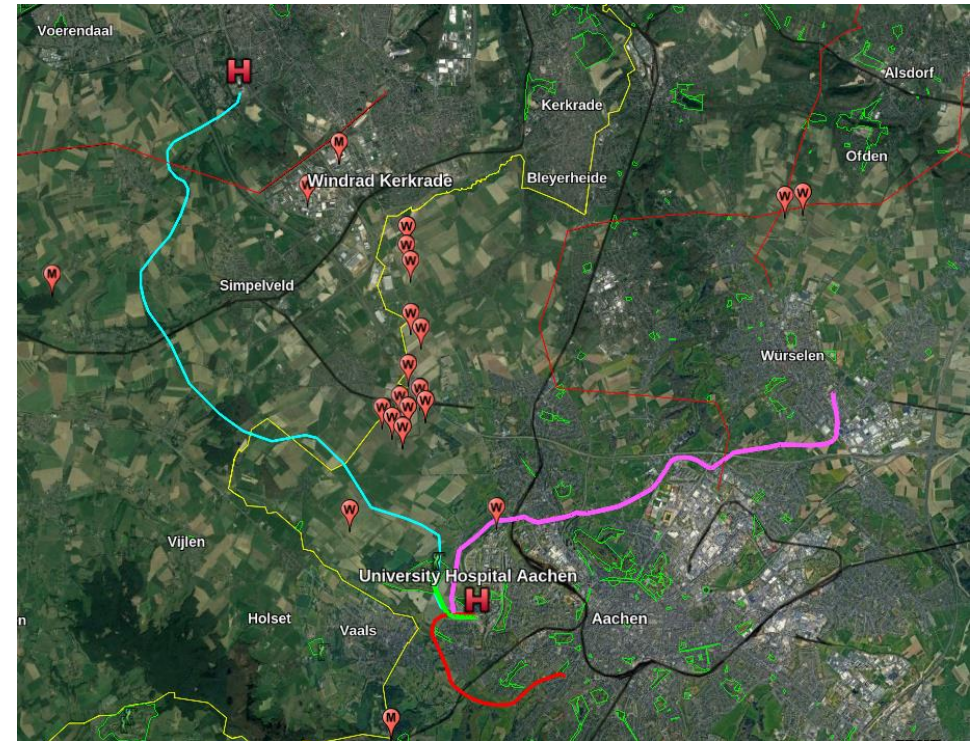

# Droniq in SAFIR-Med: Role

**Improvement of the UAS integration close to borders within UTM**

**Gain in-depth knowledge of medical BVLOS transports across European borders**

**Gain in-depth experience with legal requirements across European countries**

MAHHL Demo routes orchestrated by Droniq

Medical use cases as blueprint for efficient UAS operations

Only technically

- **integrated**
- **standardized/harmonized**
- **continuously connected**

**cross-border U-space** airspaces realize  
the **full potential of** medical UAS operations

THANK YOU FOR  
YOUR ATTENTION
